Gmail Android Mail App

Set up an Outlook account for Gmail Android Mail app

Android mail apps may differ across different devices, and these instructions may not match the exact options that you see. Please use these steps as a guide.

IT Services recommend using the Outlook for Android mobile app –from the Google Play Store.

1. Install the Gmail for Android app from the Google Play Store.

Note: If you already have it installed, make sure to update the Gmail app to the latest version.

- 2. Open the Gmail app.
- 3. Tap the menu icon in the upper left corner, tap **Settings**.
- 4. Tap Add account.
- 5. Tap Exchange and Office 365.

6. Enter your full University email address and tap Next.

7. Enter your password and tap Next.

8. You will receive a prompt for multi-factor authentication, verify your identity, e.g. by entering a one-time code received by text message or approving a Microsoft Authenticator app request.

We've sent a notification to your mobile device. Please open the Microsoft Authenticator app to respond.
